

Groundwater Cycle

V1.3: Use of Groundwater

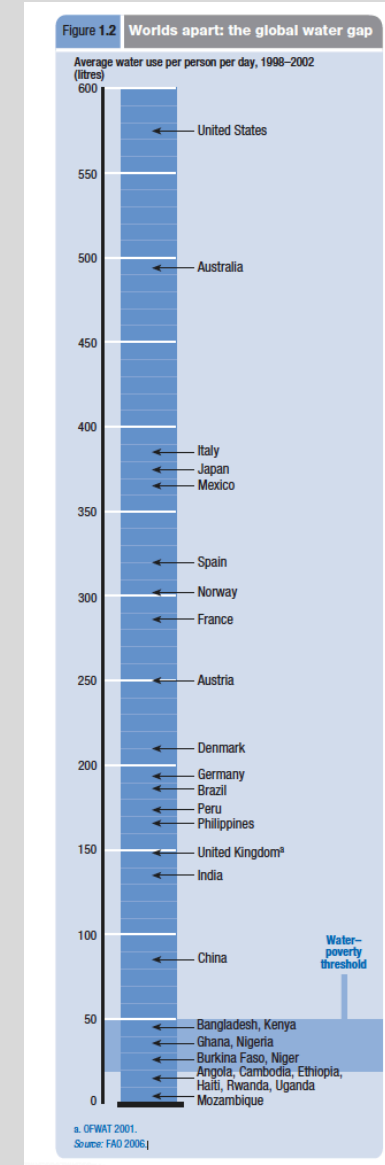

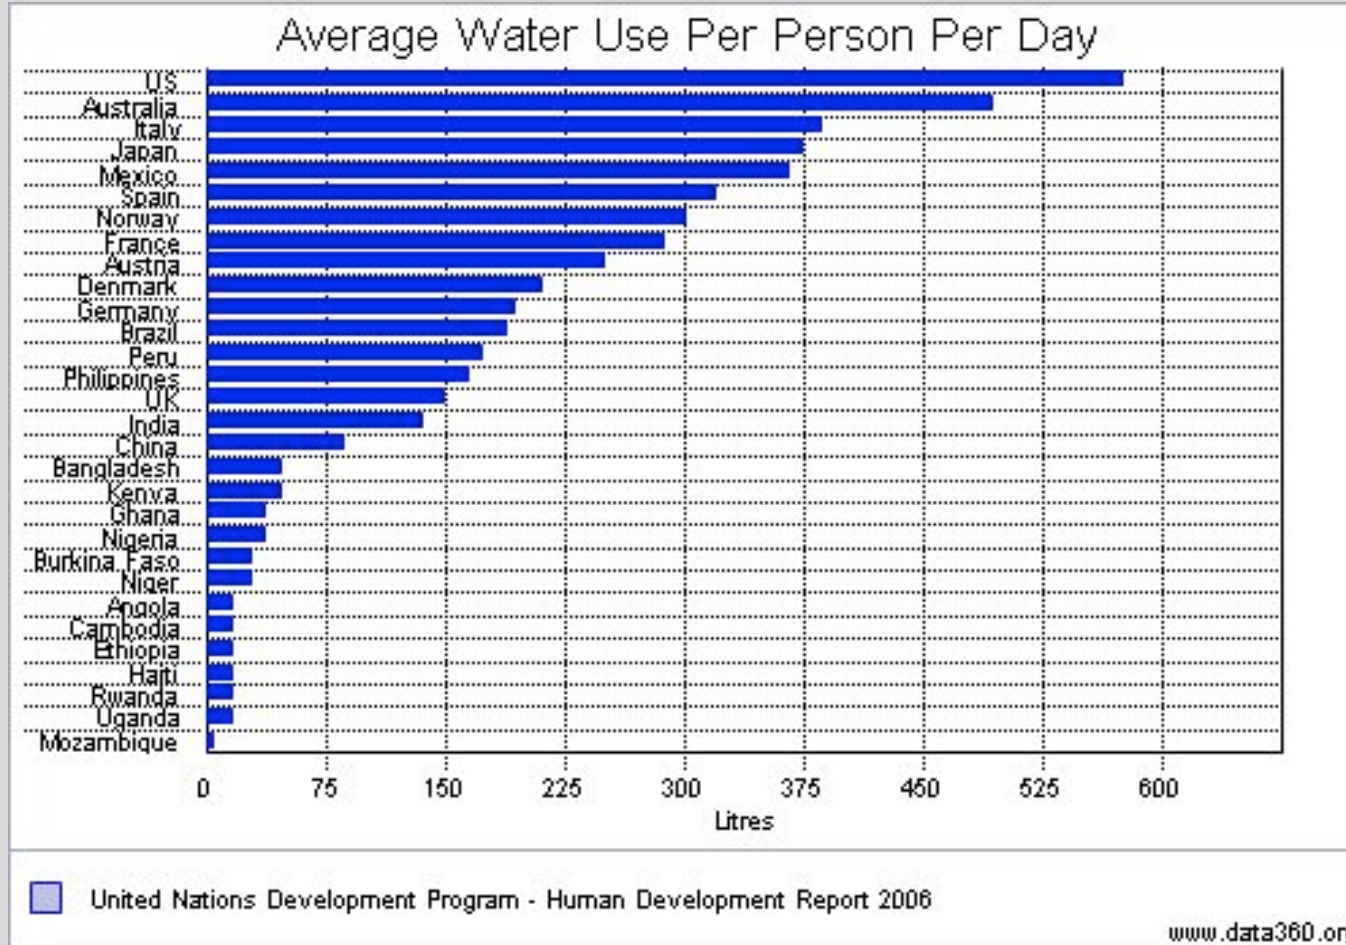

Groundwater Usage

Level of allocation	Use	Amount (litres per person per day)
Minimum 'survival' allocation (sustainable for only a few days)		5-7
	Drinking	3-4
	Food preparation and cleanup	2-3
Medium term allocation (sustainable for a few months)		15-20
	Drinking	3-4
	Food preparation and cleanup	2-3
	Personal hygiene	6-7
	Laundry	4-6

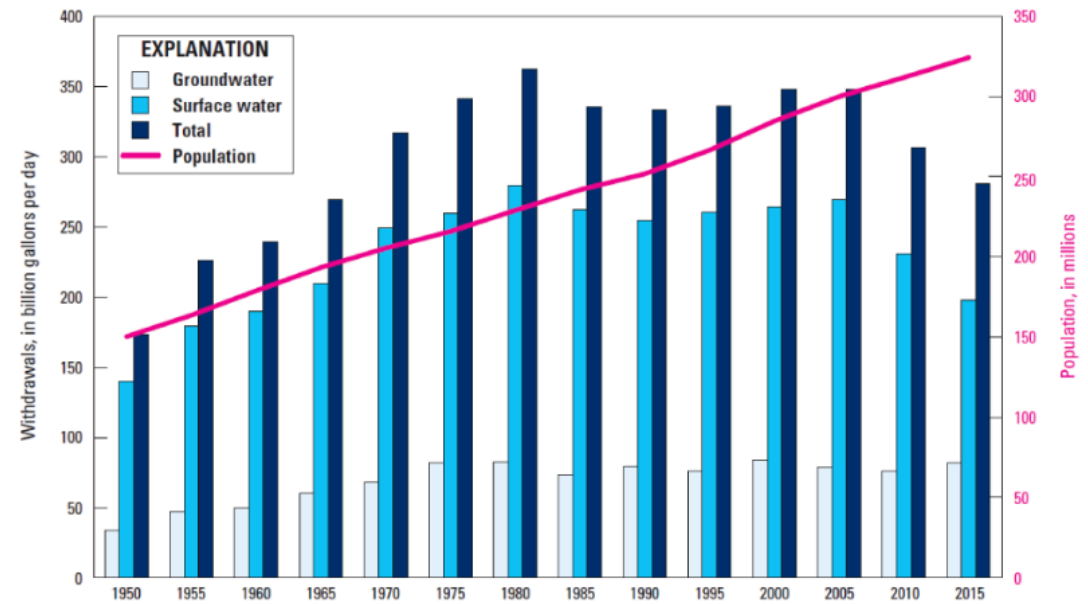

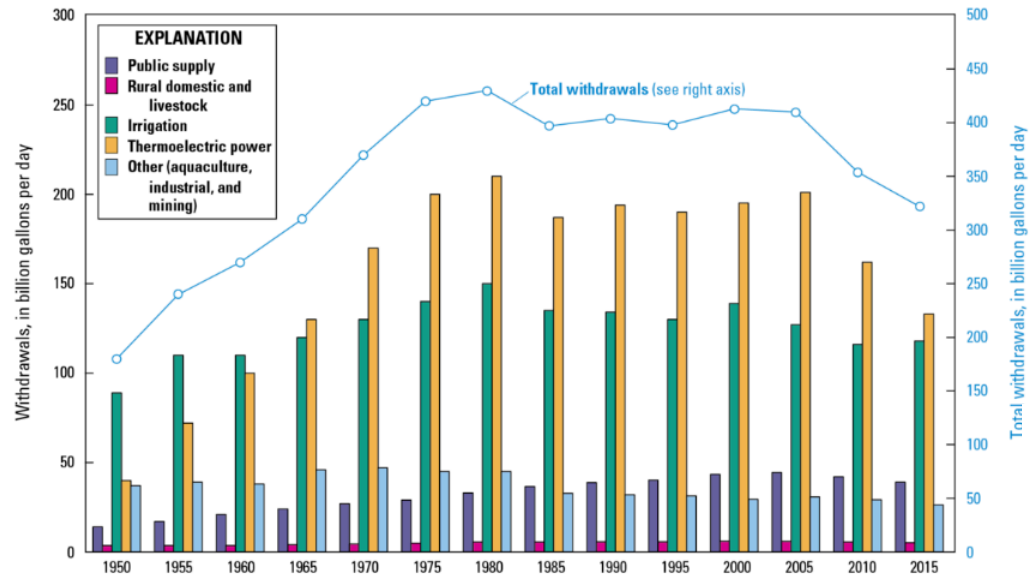

Minimum Amount of Water Required Per Person Per Day;
